

After the Wedding Day Package

%15 off \$1165.

This package can be used for two type of video and book combinations.

Today many photographers take the pictures and hand you the digital images. This package will take those pictures and any video you or your guest took and create a video and photo book to share your wedding with family and friends. This is also a great way to create a album to share with friends if you had a destination wedding or eloped.

Another type of video this can be used for is couples who have been married for years but would like to update their wedding video and pictures. If you have your video on VHS or film, we can transfer these to digital. We can scan your pictures from your wedding album and create a updated combination video and book of your wedding.
